Please note that *ISS Europe Contentious Issues Alert* should not be interpreted as an indication of how ISS ultimately will recommend that shareholders vote. The alert is designed to highlight key issues facing shareholders in selected contentious situations.

This issuer may have purchased self-assessment tools and publications from ISS Corporate Services, Inc. ("ICS"), wholly-owned subsidiary of Institutional Shareholder Services Inc. ("ISS"), or ICS may have provided advisory or analytical services to the issuer in connection with the proxies described in this report. No employee of ICS played a role in the preparation of this report. If you are an ISS institutional client, you may inquire about any issuer's use of products and services from ICS, by emailing disclosure@issproxy.com.

This report has not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body. While ISS exercised due care in compiling this analysis, we make no warranty, express or implied, regarding the accuracy, completeness, or usefulness of this information and assume no liability with respect to the consequences of relying on this information for investment or other purposes. In particular, the research provided is not intended to constitute an offer, solicitation or advice to buy or sell securities.

ISS is a wholly-owned subsidiary of RiskMetrics Group, Inc. (RMG), a provider of financial risk management analytics and solutions.

The issuers may be a client of ISS, ICS, or ISS' parent company, RMG, or the parent of, or affiliated with, a client of ISS, ICS, or RMG. ISS may in some circumstances afford issuers, whether or not they are ICS clients, the right to review draft research analyses so that factual inaccuracies may be corrected before the recommendations are finalized. Control of research analyses and voting recommendations remains, at all times, with ISS.

Three of RMG's largest stockholders, General Atlantic, Spectrum Equity Investors, and Technology Crossover Ventures, are private equity investors whose business activities include making equity and debt investments in public and privately-held companies. In addition, RMG has other smaller stockholders who may make equity investments in public and privately-held companies. As a result, from time to time one or more of RMG's stockholders or their affiliates (or their representatives who serve on RMG's Board of Directors) may hold securities, serve on the board of directors and/or have the right to nominate representatives to the board of a company which is the subject of one of ISS' proxy analyses and vote recommendations. We have established policies and procedures to restrict the involvement of any of RMG's non-management stockholders, their affiliates and board members in the editorial content of our analyses and vote recommendations.

Institutional Shareholder Services Europe SA ("ISS Europe") is a wholly-owned subsidiary of ISS. Jean-Nicolas Caprasse, the managing director of ISS Europe, is a non-executive partner of Deminor International SCRL ("International"), a company which provides active engagement and other advisory services to shareholders of both listed and non-listed companies. As a result, International may be providing engagement services to shareholders of a company which is the subject of one of our analyses or recommendations or otherwise working on behalf of shareholders with respect to such a company. As a nonexecutive partner of International, Mr. Caprasse is not involved in the engagement and other services provided to the clients of International. International has no role in the formulation of the research policies, reports and vote recommendations prepared by ISS or ISS Europe. Mr. Caprasse will benefit financially from the success of International's business in proportion to his partnership interest.

Neither RMG's non-management stockholders, their affiliates nor RMG's non-management board members are informed of the contents of any of our analyses or recommendations prior to their publication or dissemination.
